

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Worldwide Growth Trust Class A 2000 Net Income Units [ISIN:GB00B9N2NW85] Class A 2006 Net Income Units [ISIN:GB00B9N2T645]

The Authorised Fund Manager of the Fund is Evelyn Partners Fund Solutions Limited, part of the Evelyn Partners group.

Objectives and investment policy

The Fund aims to achieve total return (capital and income) through an actively managed international portfolio.

The Fund will mainly invest in:

- shares
- bonds issued by governments and other organisations.

The Fund may also invest in:

- derivatives
- currencies, commodities and property
- other investments funds (regulated and unregulated funds)
- warrants
- cash, deposits and money market instruments

There are no geographical or sector restrictions on the Fund.

The Fund may use also derivatives for Efficient Portfolio Management (EPM) and investment purposes, i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

Capital invested in the Fund is at risk. The Fund will seek to achieve a positive return over a 5 to 10 year investment period, there is no guarantee that this will be achieved over that specific, or any, time period.

Total return: means that returns will be sought both from investments the Investment Manager believes may offer the prospect of, but not guarantee, capital appreciation and also from income from dividends and coupons.

Any income the Fund generates will be paid out to you.

You can buy and sell units on Wednesday of each week (except for, unless the Manager otherwise decides, the last working day before Christmas; New Years Eve and bank holidays in England), the last business day of each month and other days at the Manager's discretion.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a higher category because the price of its investments have risen or fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in warrants, these may be hard to buy and sell and their prices may move up and down suddenly. This could significantly impact investment performance. Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- The Fund is entitled to use derivative instruments for EPM and investment purposes. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.
- For full details on risk factors for this Fund, please refer to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	5.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.92%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is annualised based on the expenses incurred during the period 1 April 2023 to 30 September 2023. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- Previously, the Ongoing Charges Figure (OCF) included expenses incurred by a Fund on any investments in collective investment schemes and closed ended vehicles such as investment trusts (the synthetic OCF). Following guidance issued by the Investment Association on 30 November 2023, any synthetic OCF will no longer include closed ended vehicles.
- A dilution levy may be charged on a purchase or sale of units in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market unit price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant section in the Fund's Prospectus.

Past performance

Source: FE fundinfo 2024

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 19/12/2002.
- Share/unit class launch date: 19/12/2002.
- Performance is calculated in GBP.
- Δ Before this date the Fund had different characteristics.
- All charges and fees, except any entry, exit or switching charges, have been included within the performance calculation.
